2005 ABR National Track Championships:

The 2005 ABR National Track Championships in conjunction with Wisconsin Bicycle Racing will be presenting a National Track Jersey to the overall winner for each category and 3 place medals for each event within each category. The overall winner in each category will be determined based on the rider who scores the most points from each of the individual events in that category. The top 6 riders in each event will score points (7-5-4-3-2-1). Riders do not need to compete in all races in order to win the overall Jersey. The highest placing in the last event working backwards will break any ties. Categories and events may be combined if there are less than 5 in a category and no jersey or medals will be awarded to the category that did not meet the minimum number of entries but will be eligible for the overall in the combined group.

Special Rules:

- # 1 **Road bicycles** may be used for timed events only (200m tt, 500m tt, 1k tt, pursuits), no shifting allowed (gear must be “blocked”, the gear you start is the gear you must finish with).
- # 2 The 200 m time trial is an event in itself and counts towards the overall. **You may post your time at any time during the 12noon – 7pm session.** It is also used for the seeding/qualification for the sprints and all sprints riders must have a qualifying time for each sprint event they are entered. (Must inform officials before your ride which event/category the time will be used).
- # 3 In timed events (except 200m): riders will be allowed only one restart in the first 30 meters for any reason, but must indicate their intention in the first ½ lap and must stop racing. After the first 30 meters, a restart is allowed only for a mechanical (Breakage of an essential part of the bicycle).
- # 4 In order to be eligible for the jersey and medals, you must have an annual ABR license.
- # 5 Any other special rules will be posted at registration and on the results board.
