Bicycle racers from all over the USA and a few from beyond came to Chicago, Illinois to test their bikes, hearts, lungs and muscle against the mighty Chicago street bike racers. University of Chicago Velo Club with the help of the City of Chicago closed down the Midway Plaisance streets next to the University of Chicago, swept the streets clean so we could compete on the same level over raw Chicago black top, brought in Video Tape finish services from Michigan so all could see the results laid bare in living color. What a beautiful day to race in Chicago, a bit cool in the morning and it stayed that way, a bit breezy and it got boisterous as the day progressed. The racing was FAST from the start and at times riders at the front pushed the limits until near the finish when those with a wee bit more, opened some after burner leg speed and endured in a furious sprint to the finish. **Some moments to remember:** Jennifer Hoover blasting off the front of the combined Women Cat 4, 40, 50 & 60 plus field with two laps remaining, June Upshaw chasing and then the field. Who's the girl winning all the Primes? UCVC Women in the top five. The Cat 3 incredibly long sprint. Masters 30+ loaded with power and speed. Masters 40+ breakaways, lost count, Warren and Andy make it stick with little to go. The local tour ride, off course, could not keep up with fast Women Open racers. Listen guys, Spencer is fast and has endurance, given a chance he is gone, alone or with a group does not matter, with more team mates it may have been Mesa all away. Thanks UCVC for another exciting Monsters of the Midway. Here are the results, congrats to the riders on a well raced event.
