

City of Winfield and the Athletes By Design Cycle Club hosts the

American Bicycle Racing 2006 National Criterium Championship

At the
Winfield Criterium VII
Winfield, Illinois
August 27

This tough tilted rectangle tree shaded criterium course starts at the lowest elevation. After the second corner it gradually climbs up a series of steps to the third turn and shortly it begins a descent to turn four and onto the finishing stretch where it flattens a hundred yards from the finish line. Breakaways on the uphill, on the downhill, on the flats and through the turns made each of the races a thrill to watch. This race is held on Main Street Winfield where residents can lounge in front of their home to watch the races. The Gas station at turn one was filled with bicycle racing fans and racers. If you took the train to the race, the moment you stepped off you were at the race and next to registration. Spectators were cheering on their favorites at the top of turn three hill, where the racers are moving the slowest. Coaches were spread out along the course yelling tips and words of encouragement. As the racers flew by the finish area the roar of the crowd every lap kept the two announcers yelling into their mics.

Below are the top placers in the Winfield VII ABR National Criteriums, only ABR Annual members were eligible for the National Champ title. Followed by the overall Winfield VII results.

ABR NATIONAL CHAMPION STARS AND STRIPES JERSEY WAS AWARDED TO FIRST PLACE AND ABR CUSTOM MEDALS WERE AWARDED TO THE TOP FIVE PLACES.

National Championship Results

In the cat 1-2 race Bryce Mead broke away from the field, with an impressive ABD blockade holding back mankind and maintained the break for many laps until two teammates shot off the front to bridge the gap on the final lap finishing 1, 2 & 3. Then came the strung out pack with another ABD team mate finishing 4th.

Overheard some Cat 1-2 ABD riders ask Reid how he won a National Jersey. They were surprised to hear he raced the Master 30 held immediately after the Cat 1-2 race and won. Close behind was Paul and Pat from Metlife, Chris from Delta and Rob from Training Bible. Jeez, that was the fastest Master 30 event I have ever raced.

Are these really the top racers from a decade or two ago? Well, I am not sure about then but they give me a tough time right here in the present. In the end super fast sprinters lit the turbos and flew by the finish line in astounding speed.

After the start of the combined Women categories the speed gradually built and the jams became more serious as the laps ticked away. Jessica was able to push a gap between her and the field, not an easy task with the power and acceleration in this field. Now away, up the hill out of the saddle pounding on the pedals to turn four every lap, with quick look behind as she made the turn to view the chasing field. With overall prizes and National Jersey on the line the field made a charge to the finish line, Pascale lit an after burner to pass Corie just before the line. Beth, Peggy, Kathleen and Patricia each road a great race to win their National Champ jersey and title.

Young people are the future of bicycle racing. Their enjoyment of riding a bicycle, their interest to race with others and the encouragement of their parents and mom & dad's taxi service brings them to the races. On the start line I see the same emotions as adults. Quiet calm, nervous tension, excitement, anticipation and energy ready to explode off the line. They also want to prove to their parents they can finish the race no matter what the weather or how far behind they may be from the leaders.

Konrad did not expect to win he thought that would go to Aaron. During the first lap of three Aaron had a flat tire, no free lap on this course distance he would need to make up any distance lost after the wheel pit stop. His dad made a bike exchange when the spare wheel would not fit, unfortunately the bike given was way to big and the pedals did not fit his shoes, so Aaron ended up sitting on the top tube and tried to keep his feet on the pedals. Up ahead Konrad pedaled with every ounce of his energy to stay in front of hard pedaling Aaron.

Although there was a short time gap between the junior age group starts there was no restriction against riding with racers from other age groups. The Jr. 15-16 started quickly after the Jr. 17-18. With the 17-18 playing cat and mouse with the speed the 15-16 were gaining quickly. Theo caught the 17-18 first and followed by John awhile later. These two race near each other until the last lap when Theo gain a little to finish in first.

The sprints between Alex and Adam have been a nail bitters all year. Who leads out, who will jump first, can they hold off the other, and the finishes have been so close at the line. After much review and measurements of the two finish camera images and finish line pickers by the Officials the win went to Alex in this super competitive fast close finish.
