At bicycle races and every sport for that matter Competitors follow the Rulebook. They also are to listen to the Officials and their designated course Marshals. When a Marshal is directing you to turn we expect the Competitors to turn when safe. Even if the course map said otherwise because something could change that makes it impossible to use original course. Unfortunately at this race one Corner Marshal directed a few riders the

wrong way and these riders road 4.506Km less then full distance. Fortunately a floating Official coming back from the turn around caught the error, corrected the Marshal and all but those few rode the correct distance. So, for those few we have calculated a time based on their average for distance ridden. Not perfect, of course, but it is the best calculation available. Those riders time is in red type.

The MATTS overall was on the line in several categories which contributed to many very fast times. The weather was perfect for an all out effort and when you were done a massage, fruit and drinks were waiting for your enjoyment and relaxation and patience as the Officials finished timing and tabulating accurate results for everyone.

Big thanks to Team BBC and friends from their training ride for all their help.

MATTS Overall Awards will be presented at the WIIL Banquet, Nov 17, at Midori Banquet Service, Old Orchard Club, Mt. Prospect, IL.
