GREAT weather greeted the racers who came from many Midwestern States to the University of Chicago in Hyde Park, City of Chicago. The 1.1 mile course is smooth and fast, no more potholes or patch work, this three new Chicago streets.

Fast speeds in the top ability Category 1-2 made breaking away nearly impossible, after several attempts with various mixes of riders Schroetlin gets away, Martin joins him and they Time Trial to the finish for 1st & 2nd. No attempts to catch them by the field or individuals worked.

Another fast race with no breakaways. Through the last two corners Adamczyk motions to team mate Serafin to board the Adamczyk Express. The only one question: did Adamczyk slow down so Serafin could sprint past or did he finally run low on steam?

Category 4

86 racers started, 75 finished. With high speeds down the long straight away and slow speeds around the end corners made it possible for the field to stay together and charge in a huge field sprint to the finish. One rider broke a chain within 50 yards of the start, he and another rider fell but rejoined the field on the next lap. Good safe race.
