

2008 Wisconsin Bicycle Racing - 3rd Annual Kenosha Business Park Criterium

May 4, 2008 (Sunday)
Kenosha, WI

Absolutely perfect day for racing on the very smooth and fast Kenosha Business Park, in Kenosha, WI. This was not the Industrial Park Criterium course used in March for the Spring Series.

The wind from west and slight uphill to the finish line made for a hard sprint finish.

Junior race was tough, except for Ari who cruised to the finish.

Masters 50+ saw McKillip off the front for many laps until Adamczyk and others reeled him in, then to see Emery pushing the pace that only Adamczyk and Demel could answer.

Awhile later we see some of the same riders bashing the Master 40+ with the addition of the Beans & Barley team. Verner Adamczyk and Lowe are off the front with Thompson and Otter chasing. Who said this would be easy?

Cat 4, hey didn't all those WDT riders get moved to Cat 3, only the ones from last year! This is the new crop and they are on their way to Cat 3 by the look of results. But Mysekewicz (Kettle) and Lund (ABD swede) ruined a sweep.

Some years ago I saw this new young rail thin Junior rider enter some races. Today I saw this same rider blast out of the last turn and lead all the way to the line. Doug, Jordan and Derek tried but Thomson just sprinted away with 1st in Cat 3.

In the Cat 1,2,3 racing when you have a super sprinter in the field or break the best thing to do is get away and so they did (Wheel and Sprocket riders Crater and Goldsmith) but in this case he (Springer) is a team mate that can do very well blocking in the pack sprint finish.
