

Kenosha Velosport

Spring Training Criterium Race Results

Kenosha, Wisconsin

Race # 2 held on 16 March 2008

Event held with ABR, American Bicycle Racing.

2nd event in TOI/W and points towards ROTY

The Tour of IL and WI is a multi stage event throughout the racing season, riders gain points for their placing, overall prizes are awarded at the WIIL Banquet in November.

ROTY is WIIL ASSN. Rider Of The Year, points are earned at MATTS, TOI/W and select events throughout the season in IL and WI events held with ABR.

The Kenosha Velosport Race was held at a new 1.1-mile course in the Industrial Park of Kenosha, Kenosha, WI. This is not a flat course; you are going up gradually from start line to just beyond the first corner. The gradual downhill begins and continues a little past the third turn. Now the gradual uphill begins all the way to the finish line. The course is just short of 4 lanes wide. The surface is cement.

HUGE Thank you to City of Kenosha and the road crew who made the Two Industrial Park Criteriums possible: Kirk Gillmore, Tom Mueller, Mike Schovan, Nasser Museitrf, Orlando Guttirez

Registration, results, awards, and a small food table was located in a large heated tent and was a great place to drop in to warm up. Spring weather should be coming soon.

THANK YOU HAN & ANGELA HUANG and MIKE & CHRISTINE RIVA for all your work to put this together. GREAT JOB!

RESULTS Race # 2 held on 16 March 2008

Who said juniors don't race bicycles? Here they are, they raced fast, hard and a never give up attitude, it was great to see them racing. Don't forget there is more racing coming this season in your age groups.

Category 1-2 “This week you take 1st“, or so the rumor went but cannot be confirmed that this was the case by the brothers White. With warmer weather more riders came out for this week’s race, the competition was greater.

Category 3 Tomasz has a good win over this tough field of riders and especially over those on his heels. The weather was a bit warmer, there was no snow falling, the uphill downhill wind blown course made for a good race.

Category 4-5 OK, That makes two wins for Sandquist and that much closer to Cat 3. No Club dominated this race as you can see the top 10 places were filled with riders from 10 Clubs. It is early, surely there will be riders moving up the place list as their racing form rises.

PARK TOOL self service tool stand, located at the wheel pit near the start line, continues to sponsor the TOI/W, MATTS and ROTY events in Wisconsin and Illinois. Every tool you need to make an adjustment whether before, during or after the race. Ok, sometimes someone rebuilds a bottom bracket, headset or gear cluster but isn't that jobs done before you arrive at the race course. www.parktool.com
