**THE VERY BEST WEATHER** greeted the racers who came from all over the USA to race the 1.1 mile closed course on the streets of Chicago at the University of Chicago, in Hyde Park. The course was mostly smooth and fast, no more potholes or patchwork; this is the new Chicago streets.

OK, OK, some of you noticed - yes a contractor for the Park District cut open a 1 ½ ft wide trench on the back stretch the Day before BUT the UCVC members came together to fill it with sand, dirt, plywood, and rolls of tape. I know this will be news to many, UCVC did that great of a job.

### Category 1-2

The cream of the top riders in the area as well as from far away set speed records through the turns and down the long straights. This was a mixed bag of new Cat 1-2, well experienced (20 plus years) and relatively new (5-10 yrs) racers. The break attempts began almost immediately with John Meyers ABD Gear Grinders in the mix until he alone broke and was thee rider of the day with his solo break lasting the final 12 laps. Numerous riders and groups tried unsuccessfully to reel in or catch Meyers, the fast furious field finish was won by a well warmed up Joshua Carter ABD Geargrinders.

### Category 5

The new racers took off at a good clip, for the most part stayed as a pack, with only those who expended too much energy early, or not up to the quick accelerations being dropped from the field. Unfortunately the Photo finish camera was bumped and no photo finish results are available. The first 5 places and 7<sup>th</sup> Officials were able to determine. Those riders with OB in the [place column were off the back of the finishing field or lapped.

For some reason Pascale Petro Team Apache does not look very fast but on the on the bike in a race she looks very determined and nothing gets away without her there. Erin Hetzel Team Tortuga tried several times to slip away, as well as Sue Semaszczuk ABD but in the race to finish line Pascale turned on the after burners to take 1<sup>st</sup>.

#### Women Category 4

The varied abilities of the riders showed as the field would split, regroup, front would jam and riders in back would drop off from field, a front and main pack would develop regroup and then split again, with those tired riders trailing both fields. The sprint to the finish was long, Lindsay Koren had a bit more speed than 2<sup>nd</sup> Jackie Moeller Team Tortuga. Several new riders were in the field at least to me. Most surprised was to see 3<sup>rd</sup> place Rebecca Chan Turin-Illini Cycling. Chan appears to be developing Dad's sprint abilities. So, is this the new order "UCVC Get a Grip women win at MOM"?

## Master 30+

Stephen Spencer ABD Gear Grinders and Peter Rolewicz Higher Gear push the pace from lap 1. By lap 5 Charles Biro Get a Grip Cycles, Paul Wood MOB Squad-U-Build-it, Rob Jungels ABD Geargrinders and a few others were away. At one point 15 riders were ahead of the field but eventually there was a break from the break. With a few laps to go Marc Zions Alberto's, Jacques Cartier xXx Racing and Andrew Rizzo Higher Gear were away barely, but in the end Mike Heagney PYOC-RRB, Spencer, Wood get by Zions for the top 3 places. This was a great race to have watch.

Please email Bob at [abrlund@aol.com](mailto:abrlund@aol.com)

For questions on results placing, name corrections, club corrections, etc.

The long delay in posting the results was due to this typist and not UCVC. UCVC was screaming in my ear since 5/19.

Thanks for coming out to race M.O.M. it was great watching you race in the "City".

UCVC, University of Chicago Velo Club to hold this event year after year did a tremendous amount of effort, hard work, time and energy. Please send them a big thanks.

Next TOIW event is June 14, The Great Carroll County Cycling Event. A one lap 60-mile road race.
