30th Annual Spring Training Races
Sunday, March 15, 2009

An excellent start for the 2009 *TOI/W – ROTY Event Series* on the

“Bicycle race course” at LakeView Corporate Park in Pleasant Prairie, WI

Kenosha Velosport did a great job in searching venues to continue their Spring Training Criterium Series. Of course there is a BIG THANKS to the City of Pleasant Prairie, WI for their assistance in making this event possible.

The weather was sunny all day, temps at 9am 38, 10am 44, 11am 47, 12n 48, 1 to 3pm 49 and hit 50 at 4pm.

This D shaped .7 mile course dropsto1st turn and actually drops gradually to the north side then after turn 4 you climb to highest point and descend a bit to finish line. Perhaps 10 or 20 feet elevation change.

Location: LakeView Corporate Park is located in Pleasant Prairie, WI. Take I-94 to Hwy 165, go east. Turn on left on 80th Ave., Parking at 10303 80th Ave, Pleasant Prairie, WI

Racing started at 9am with the combined field of Master 60 through 80+ and a second field of Master Women 40 through 70+, Women Open & Women Cat 4/5.

Kallas and Vichotka took the front early and gradually increased the pace making a break with Stern on their heels, but eventually is was Kallas and Vichotka with a small field behind that was breaking up.

The Women combined start stayed mostly together until three laps to go when Huang pushed the speed up and long enough to stretch the field out to single file breaking point. Several could not hold on to the field. A brief rest and Huang pushed to the finish line.

The Masters Master 40-49, 55-59, 50-54 raced next and started as a combined field, numerous breakaways were attempted during the race, some were away for a long time before being swallowed by the field. A rest would occur and then off went another break attempt, caught again. Near the end Saplis, Verner and Lowe made it work, perhaps some team blocking, I mean teammates were not trying to catch helped. They made a break, it held, they sprinted and Verner won, I guess his 14's at the ABD Indoor TT's means he is fast! 50-54 rider Bobka sprinted to 5th overall and 1st 50-54. McKillip grabbed 10th overall and 1st 55-59. Tough race.

Rizzo pushes for a break early, joined by Boba, Crater and a Burnham rider. Eventually a group of eleven was off the front and making distance on the field. Don't catch the field with only a lap or two left someone yells, they slow a bit but then it is full speed ahead, with Boba showing his early season sprint speed.

I did not see the Junior races, I am sure they raced hard, their parents were screaming encouragement, heard some kids say "your Mom yells loud" "wasn't my Mom, she's reading", "who's dad is following us", "keep pedaling we'll wait for you". They never give up because the goal is to finish and you never know who will flat out.

Category 4 and 5 raced together. The field kept a good pace with a few break attempts and the field was strung out some laps. Bolivar, Otte and Hughes were able to get away and held their distance to the finish with a fast charging field spreading out to the finish.

Go Fast, fast enough that no one gets away for long, the field stretches out almost to breaking in multiple parts then the pace relaxes enough to bunch up, recoup and the push is on again. In the end Serafin unleashes his sprint to take first in the field sprint that lasted only a few seconds from front to rear.

Just a few laps into the race Loberg, Robertson and Moorhouse break from the field. Other riders made a few attempts to catch in the next 7 laps with no luck. Boba and Schouten get away at 11 laps gradually gaining on the three man break ahead. Two laps later the field breaks into three groups. A lap later Loberg, Robertson and Moorhouse catch the 3rd field and immediately Loberg takes off and catches the 2nd field. Robertson and Moorhouse cannot stay in contact with Loberg and two laps later Boba and Schouten catch the 3rd field with Robertson and Moorhouse. With Loberg pushing the pace of 2nd field, he drops them in 5 laps then goes on to catch 1st field where he remains to finish first having lapped all except Robertson, Moorhouse, Boba and Schouten. The 1st field held 5 riders for 6 through 10th. 2nd field finishes with 5 riders 11th to 16th and then the 3rd field with the top four and riders 17th on finishes. Great race Erik Loberg.
