Within one lap of the start three riders, Wayne Simon, John Fleckenstein and Bob Berg broke from the field. That was only the start of many attempted breakaways. Lap 8 had Jon Lafontant and Gary Doering off the front and chasers trying to catch. Lap 14 Wayne Simon, Fabio Orlandi, Andy Kerr and John Fleckenstein joined the break. this break had the leg power and speed to lap the field. Tom Doughty sprung from the chasing field trying to catch but he was no match for the break. Two laps to go Stuart Grinell goes off the front of chase field. Wayne Simon wins the very fast breakaway sprint finish and the IL 50 Champion, in the field sprint Richard Kreutzfeldt wins the IL 55+ Champion title. What a great race to watch.

57 Master 40+ riders lined up to race the 45-min plus 2-lap race. A quick look over the line up and you could just tell a Team effort was in the works to place teammates in first and the top 10. The start was not special but with each lap there was a new rider or riders trying to break from the field. About half way through the race a break was established. But this break began having riders trying to breakaway. The break had Doughty, Zauner, Otero, Kron, Metz, Boyer, Kerr, Lowe and McLerran. 8 laps from the finish after a prime Tom Doughty breaks from the breakaway and holds off the riders. With two laps to go riders from the field were catching the tail end of the Breakaway. With one to go Doughty off the front and a stream of riders behind. Hackl, Haas, Simon and Arrigoni infiltrated the break at the finish line, causing surprise by the break.

12:30pm and time for lunch, no way, 35 Master 30+ riders are on the line ready to race 45min plus 2-laps. Hermon Johnson breaks on the first lap with Howard Smith, Chris Mosora and the field chasing for 6 laps. Prime lap comes and Stathy Touloumis and field swallow the break. But Stathy stays off the front with Andy Rizzo and Jeff Schroetlin chasing hard. Brian Haas and Kevin Stephens join the break in two laps, now there are 5. Kevin is dropped 5 laps later. The pace is relentless in the break because riders in the field keep trying to bridge the gap. 6 laps to go and Haas is out of the Break. 5 laps to finish Rizzo is dropped from break. Walid, Mosora, Tomlinson and Johnson are at the front of the field. Two laps to go Jeff and Stathy in the lead, Andrew in 3rd alone and the field is together. Jeff takes the worthy 1st place. A well deserved 2nd to Stathy and 3rd to Andrew. Chris Mosora wins field sprint for 4th.

For 4 laps into this Category 3 race it was a field of riders riding well. The race is 45min plus 2 laps so why work hard too early. Prime bell rings and the field is charging fast, Waylon Janowiak wins the prime and keeps on going on a solo break. 7 laps later during a prime sprint Chad Chenoweth joins Waylon for 4 laps, other riders make attempts to bridge to the break without success because the field is also chasing. Then James Sneddon, Derric Ungaro and Ben Widoff bridge to the break. Chad is out of the break, 2 laps later Derric is out of the break. The time is getting short in this race, riders in the field are restless, chasing hard to reel in or bridge the gap. Ricardo Otero, Ron Cook and Nat Bricker bridged the gap but Nat cannot hold on. The break is set for the final 3 laps. Ricardo wins the sprint for 1st place IL Crit Champ and Teammate Waylon who originated the breakaway takes 2nd.

One Hour and 2 laps of fast pace racing awaited 48 of the top riders from in IL and other States. With Primes coming every few laps and an overall prize list to chase down this will be a good race. As the race laps counted down it was a mix of who's who off the front. But a pattern emerged, Ryan Freund-the new locomotive-was pressing for a breakaway. 26min (12laps) into the race he was on a solo with his ABD teammates trying to keep the field from catching for the 22min (15 laps) he was out there. Not long after Ryan was caught, Jeff Schroetlin ABD makes a break, then drizzle of rain came in which was a refresher for the riders. Jeff held off the field for 5 laps taking 1st place for the second race today (30+). The field was charging fast, stretching to single file before the after burners opened up on the sprinters. The drizzle disturbed the Video of the finish, reading numbers was difficult but with help of the riders identifying the top 24 are listed.
