Clearing skies, No rain, warming temps and a West breeze were the weather conditions. This wide road course is great for very fast speeds but wind will slow you down. Unfortunately, the owner of a business on the east north/south street did not want his driveway access slowed down by a bicycle race so the course went down an inner road, through a parking lot, then excited inches North of his driveway. This chicane tested riders technical ability. (Did I hear a possible new course for the Sept event?)

Team PACT uses a successful tried and proven tactic once again. Debbie broke from the field, on the main stretch, gaining distance with a fast ride through the chicane, no one made a good chase, Mike Jones breaks from the field, Debbie and Mike team up and ride to 1st & 2<sup>nd</sup>. The field did make attempts to catch D & M but without success. Rich Adamczyk wins the field sprint, then 75 yards after the finish with head hung down from the effort misses the turn and rides into the course barricade.

The field stayed together for most of the race, until Tristan took a flyer, staying away to the finish, no easy task against the wind on the backstretch.
