KENOSHA VELOSPORT 32nd Annual Spring Training Races

Sunday, March 20, 2011

LakeView Corporate Park -
Pleasant Prairie, WI

The Tour of Illinois & Wisconsin Season Opener/ROTY Event

Second Outdoor race of the season was dry and cold in the morning but the drizzle arrived by the end of 60+ and Women's race. The next few races had off and on drizzle with cold and wind. The Cat 5 and Cat 4 races were in rain and cold. The attrition rate was heavy, some riders never made it to the course, some never left home, others arrived-DNS, but those whose started were tough. Only cold fingers or toes made them drop out. The roads were not slippery at all in the rain. The sprints were just as fast as any race and some were very close. 32 YEARS of Kenosha Velosport Spring Criteriums Big Thanks to the Team!! Don't miss the next race date March 27, that definitely will have better weather, some more prizes and a roof over the entire course with heaters every 50 feet and hot choco drink handups on the hill !!!

8:45am 10/12 & 13/14 Boys/Girls 20 Minutes

Yes, it was dry for the 10-14 age group races. Gina Johnson and Sam Beste out of the saddle field sprint driving to the line. Gina was on her Cross bike with handlebar mitts, I am sure lighter tires.

9:15am 15/16 & 17/18 Boys/Girls (Jr. Open) 30 Minutes

After a few laps of warm-up racing and a few test jumps Leif and Joe broke away, with Garret and Ben chasing ahead of a scrambling field. About 5 laps later the leaders broke apart when Leif fast pace dropped Joe. The two man chase also broke apart when Ben drops Garrett. A few laps later Ben catches Joe and proceeds to ride away. With only a few laps remaining the order was set and no Herculean efforts developed. Leif Byrge-Liebig wins for second week in a row at KV Pleasant Prairie; can he make three next Sunday?

**Kenosha Velosport has a good Silent Auction race day with some great biking gear.
Stop by the Registration tent next week and bid on the gear you need.
All proceeds help the Kenosha Velosport Junior Development Program.**

10:00am Master 60, 65, 70, 75 & 80 Master Women 50, 60, 70 35 Minutes

A few laps into this combined age and category race Kreutzfeldt, Adamczyk and Clark strung out and broke away from the field. Clark had his hands full with two strong PACT Teammates. The finish order was determined by fast sprints in the break and in the field. Kreutzfeldt winning the break away sprint and Vichotka winning the field sprint over Gaddey.

10:45am Master 50-54 – Master 55-59 35 Minutes

Masters age racers 50-54 and 55-59 raced together in their 35 minute event. Was it the wind, the rain, the speed, the competition that kept the field together for almost the whole race? Only two riders were dropped but were with the field for the finish. Ziggy wins the furious field sprint barely over McKillip and a blink later the remaining riders finished.

11:30am Master 40+ 40 Min

One way to control the pace is to lead the field especially in tough sections of a course, but riders will let someone lead hoping that rider wears himself out which may have been the case with TT speedster Gerlach. Only two laps of 14 was he not in the front crossing the Start finish line. Very Cold hands forced Corey out of the race and perhaps Sympson. If your hands cannot shift or brake it is time to pull out. Unfortunately for Gerlach most of the riders in this field can also TT 25mph and then sprint much faster at end of a Crit as Verner out powers Serafin for the win.

12:15pm Master 30+ 40 Min

Rob Springer in shorts showed all the Master 30+ riders he is one tough rider and no amount of water, cold, wind was keeping him away from 1st place, as he rolled across the line they may have watched from their cars.

1:00pm Category 5 30 Minutes

30 minutes of racing for the Cat 5 beginner racers. These riders for the most part have only been racing one or two years. During the 5th lap saw St. Clair, Stengel and Cline breakaway from the field. In the 10th lap Cline was dropped from the break but needing to stay ahead of the broken field. The field began dissolving soon after the break established. St. Clair looked to be hammering Stengel the remaining two laps. St. Clair crosses the line 1st, Stengel 2nd, Cline held out for 3rd. Only 6 riders finished this rainy cold race. Congrats, and obviously fear of cold and rain is not a factor in your racing.

We hope Nolan has a quick and full recovery from injuries suffered last week.

1:45pm Category 4 35 Minutes

Its raining, its cold 38, a North wind and we have a full 35 minutes riders ready, GO. Tyler and Jack brake from the field, then Curtis and Jerry formed a chase. These four kept the pace high and demoralized the remnants, riders were dropping out all over. Tyler wins the sprint over Jack, then takes a victory pose for cameras at the Start/Finish banner. In comes Curtis out sprinting Jerry for 3rd. That's it four riders finished!!!
