## 2011 SINGLE BONG

### Time Trial!

Kansasville, WI. 53139

Part of the Mid American Time Trial Series:

\$5000 overall season prizes and ROTY points.

SUPER great day for racing, except perhaps the strong wind everywhere except at start line, which was a balmy 70 with just a whisper breeze. Every 30 sec a rider blasted form the line, heading south over slightly rolling roads, just before the right turn #1 the wind was apparent from the west and after the turn it was very heady. The next right #2 took the riders north, still windy, with a basically up incline to turn #3 and what a relief it was to go east, wind at your back, spinning those legs to the finish line. About a dozen riders on this results list probably would have posted a faster time – if only they arrived at the start line 5 minutes before their start time – then they would have started on time instead of their clock time ticking away while they...???.were not racing.
