

MATTS
SCARLET FIRE – 39km 2 Person Time Trial
June 16, 2012

I heard it rained, sometime after the start, during the race, at the start, on the course, umm... did not rain at turn around until the very last Team turned around headed back to the finish – hours after the 1st Team started.

Many fast times recorded, so assume the riders enjoyed the cooling rain and mother nature fluid replacement. Example: Brain Akers raced twice - 1st at #15 with Bob Burke posting a 53:27 then raced at #89 through the rain with Doug Peterson posting a 53:49.

One more item to add to TTT etiquette: #14 Skin suit must not be see through in the rain.
