

**2012 ABD CYCLING WINFIELD CRITERIUM – 13th Annual
ABR National Criterium Championships
Sunday, August 12, Winfield, IL**

A hill on a race course takes its toll on riders, followed by a fast downhill with a turn stretches the field even more and when the pace picks up you can expect a break away. Can the break riders stay away from a chasing field will depend on who is in the break and who is in the field but sometimes it just depends on who is more determined.

The weather was great for a hard fast ride, high 70's to low 80's and no rain. Perhaps that kept some fields together down to a field sprint. High heat or very cold temps usually sap the energy and will power. Rain can make a mess. Today, it was great.

Congratulations to all the American Bicycle Racing Champions listed in the many age and categories. We truly hope each rider has a Super cycling season and continues into the future.

RESULTS

Men 60+/65+/70+/75+/80+

The field started together but the 60+ riders dominated the pace and top overall placings. A fast sprint to the line gave Tom Doughty is overall and 60+ Champion win. Tom Weil came in 7th overall and 65+ Champion. Bob Burns came in 10th overall and 70+ Champion. Returning to racing, former Master powerhouse, Marshall Gordon takes 17th overall – 75+ Champion. Marshall was one of the leading forces to have Master racing at every bicycle race in the Midwest, back in early 70's at a Windy City Wheelmen race in Elk Grove Village he held a 100km Master 40+ race. At that time 100km was the norm for Cat 1-2 races. There were about 20 riders.

Master 60+

Master 50+, 55+ and Women Open

This group started and raced together. The field stayed mostly together, there were some break attempts but it was in the last few laps that a few riders got away almost to the Finish. With 1 ½ laps to the finish relative newcomer Matt Howley decided to chase down the break nearly 100 yards ahead. As the break was on the home stretch Matt passes them, only sprint ace Andy Kerr could come up with a sprint to win by inches over Matt, yes the 10,000 fps camera decided, Doughty comes in 3rd and Swartzendruber comes in 4th. Later Matt told me it appeared the break sat up for the sprint just long enough for him to catch, hoping to pass by with enough speed they could not respond soon enough.

Category 3 & Open

The pace was high enough to keep breaks at bay, but a Team's tactic to keep the field together for their sprint ace was working. But Team Columbia sponsored by Village-Verdigris was active in trying for a break. The last few laps revved up as teams set up their sprinters. The final sprint was super fast with Ulloa, White, Bergh & Suarez flying across the line.
