## 2012 ABR State Criterium Championship

**Sunday, July 1st**

A MONUMENT TO THE SPORT

ABR Illinois State Criterium  
Championship

Day Two – ABR Summer Slam Weekend !!

Race day Events started with a Wood Dale Inline Skate Odyssey. 25 skaters raced 10 km. Since abilities varied it was not surprising to see the field splitting apart within a couple laps. The fastest few skaters lapped all of the other skaters who were spread around the course. The speed of the leaders was higher than I expected around 20mph. Most of the skaters set a pace for the entire distance. Unfortunately, I do not have a list of skaters or their placings.

<b>Masters 60 to 80+</b>									
Raced together in their 30 minute plus 2 lap race. Illinois State Champion Jersey to the Top ABR Illinois rider per age group. Trophies, Cash & Prizes to Overall Place. Zoumaras took the premees but three riders topped him in the final sprint.

### Women race classes

All women race classes race together in their 30 minute plus 2 lap event. Break attempts were tested, Premes were hotly contested, a battle between teams was in effect, but Erin (Wood Dale race manager/registration) with no pre-race warm-up outsprinted everyone for the overall win. Leah, Kim and June were close behind.

### Category 5

You been riding for years, alone, with some friends, perhaps jumped in training rides. Now you are here to race, maybe your 1<sup>st</sup> or 10<sup>th</sup> race. Who has the speed & endurance today – on this course? You have 20min plus 2 laps, jump too hard too soon you may be spit out the back or you just might get away. No one got away today, but Monko on last lap had the legs to jump before the hill and keep jamming all the way to the line with Barraza & Brian trying to catch. Monko & Barraza proved too much for Cat 5's and were upgraded to Cat 4 after the race.

### Master 40

50 minutes plus two laps riders ready Go... some laps into the race a storm was rolling in, will it pass over the race...the wind picked up, the banners were streaming, the race was neutralized...uh? What? The race was stopped, riders dashed for cover, tents were quickly coming down one way or another, covered wheels from the wheel pit were rolling across the course. Lunch time...Erin delivering food to the workers huddle in cars or under doorways...just as quickly the drizzle stopped...workers were clearing the debris off the roads and racing was going to resume. These 40+ riders are diehards, been around for years and rain at the Wood Dale IL Criterium Championship is normal. Now cooled off – racing resumed. Most riders returned to racing, first few laps were cautious, then the speed went up and the attrition off the back was fast. At the front the riders were charging fast, determined to breakaway and stay away.
