5/31  Wilkesville 2 Wilkesville,          Wilkesville, Ohio

This is a new format run on a great old course. In addition to the regular category racing there will be a Grand Fonda style event run as well.

We send of the Cat. 1-3, elite triathletes, and former Tour de France riders first, and then at two minute intervals we send off the next categories. We time everyone for the total distance of 70 miles. The riders with lowest elapsed time are the winners. It doesn't matter what category you start in, it is your over-all elapsed time that counts. You could be a super strong Cat. 4 and win the whole thing.

You can ride as fast or slow as you want, you can stop for refreshments at the 25 mile and 50 mile point, you can arrange your own hand-ups, you can stop at every gas station on the route; it doesn't matter, all it does is affect your final time.

There will be over-all prizes for the best elapsed times, as well as prizes for each category.
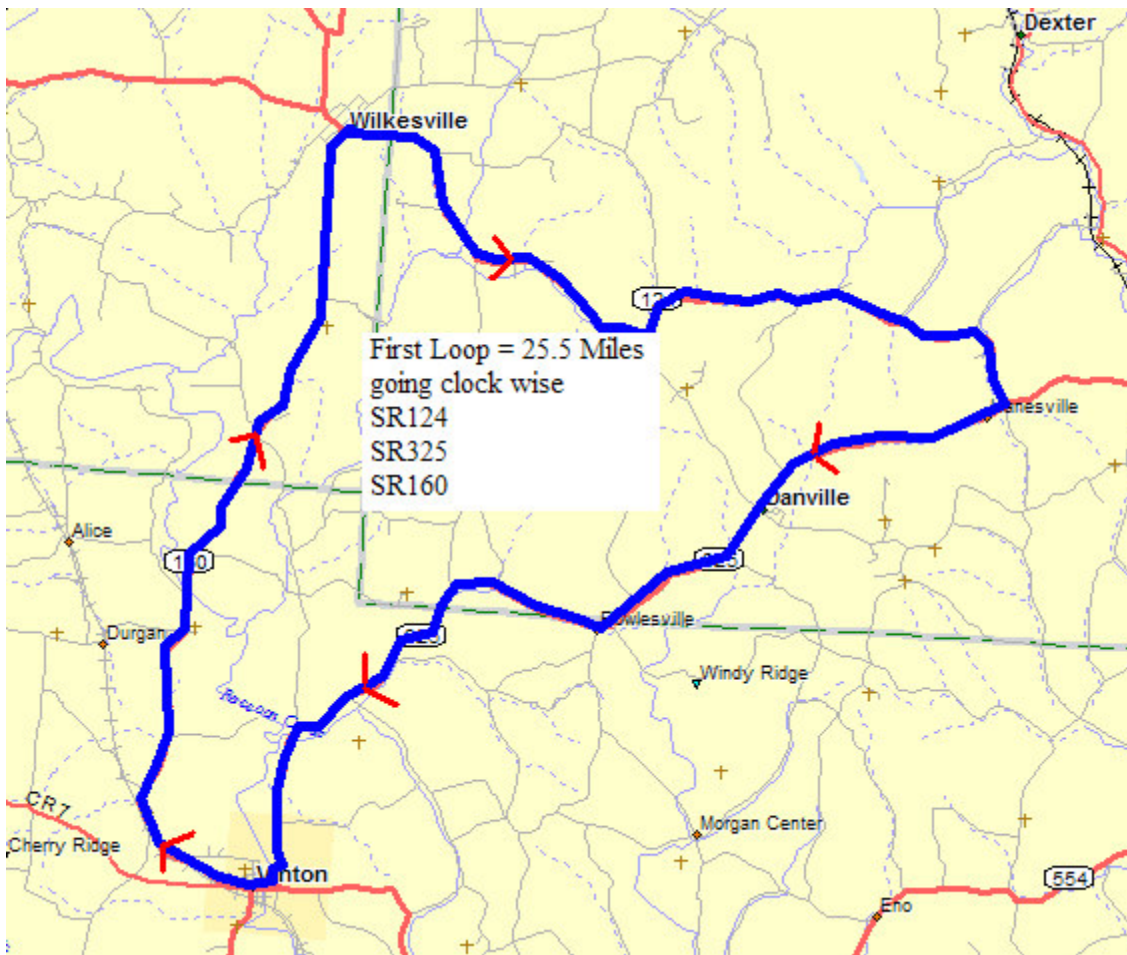

All precedes goes to the Wilton Civic association and there will be a dinner provided to all the register riders after the race / tour, plus a really cool tee-shirt.

Directions- Wilkesville is located in S-E Ohio at the intersections of St. Rt. 160 & 124 in Vinton County. Sign-in at the Wilton Community Center in the center of the Village of Wilkesville and across the street from the fire department.
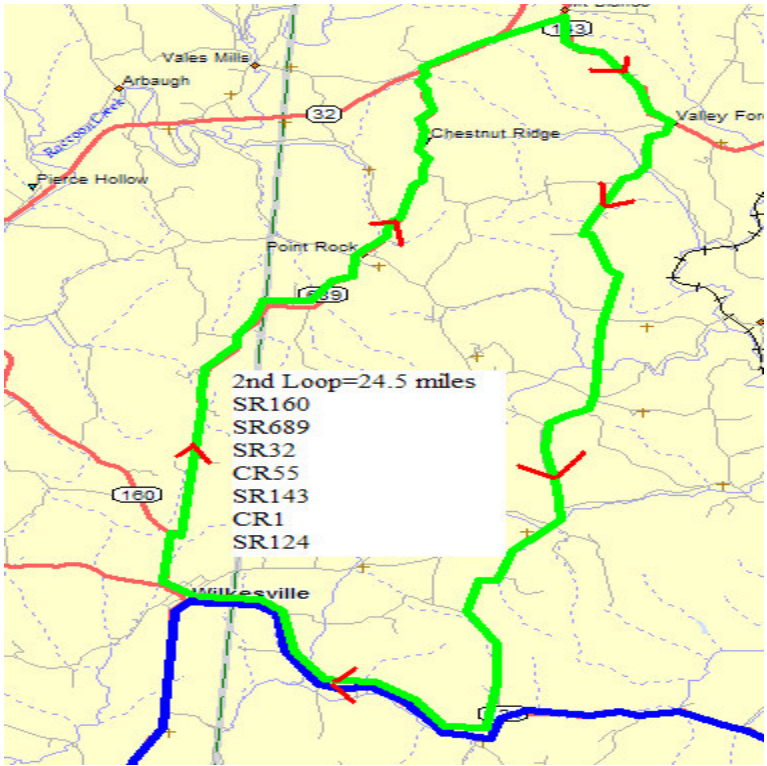

Course Description- Hilly, Hilly, Hilly, Windy and Hilly
